

Self Improvement Monitoring

Date: Aug 2022

Quality Indicator: 2.2 Children experience high quality facilities

Care Standards: 5.1, 5.2, 5.3, 5.4, 5.5, 5.6, 5.11, 5.16, 5.17, 5.18, 5.19, 5.20, 5.21, 5.22

How am I doing?

Good—My home is comfortable, cosy and tidy with a wide variety of high quality open ended resources. My garden is safe, secure and well-maintained with good quality equipment.

How do I know?

- My home is comfortable, furniture is of a good quality and in good condition.
- Large patio doors provide natural light and ventilation.
- The room has plenty of space for them to move around in and has cosy corners where children can have quiet time if they need.
- The garden is large and secure with a variety of surfaces such as grass, bark and patio.
- There are a range of indoor and outdoor resources and materials which are appropriate for the childrens' age and stage.
- I have robust infection control and food safety systems in place to ensure the setting is safe.
- Personal information is stored on a password protective drive and a locked filing cabinet.
- I have disclosures in place for the other adults in my home.

What am I going to do now?

We will continue to upgrade the décor in our home and make alterations to the building to make it work better for us as a family and as a childcare setting.

I will reorganise the garden to ensure the resources are more easily identifiable for the children.
