#### How am I doing?

Good—I am motivated to provide a high standard of care with the aim of promoting the best possible outcomes for the children. The resources within my setting and those we access within the community are used effectively to meet the needs of the children and their families.

#### How do I know?

- I promote positive, nurturing relationships within my setting and I ensure the wellbeing of the children in my care.
- I recognise that all my interactions with the children contribute to their wellbeing.
- I am committed to my continued professional growth and want to build on my strengths as a childcare provider.
- I use care plans to inform the support and care I give to the children.
- I have a network of local childminders who know my mindees. Should I need to take time off there are other adults they are familiar with who can cover for me, providing some continuity of care.
- The resources in my home and garden are of a high quality and are easily accessible for the children.
- I plan and consult with the children when I purchase new resources.

#### What am I going to do now?

I am very close to completing my SVQ. Once the new year starts I will look at further training I can do to continue my professional development.

I will continue to consult with the children when purchasing new resources.
