

## Self Improvement Monitoring

**Date:** Sept 22

**Quality Indicator:** 3.1 Quality assurance and improvement are led well

**Care Standards:** 4.6, 4.7, 4.8, 4.11, 4.19, 4.20

### How am I doing?

Good—Parents are involved in influencing change in my setting, and I have self-evaluation and improvement systems in place.

### How do I know?

- My vision and values are shared with parents at their initial visit.
- My self improvement and self evaluation is available on my website and is regularly updated for parents to consult at any time.
- I build strong trusting relationships with families so they feel comfortable coming to me with any concerns or suggestions.
- Children's opinions are sought through the use of floor books.
- I share my successes with parents and let them know when my inspection report is available so they can stay informed.
- I understand the importance and value of gathering opinions and feedback from families and children.
- I have disclosures in place for the other adults in my home.
- I use West Lothian Council's monitoring calendar to evaluate my setting and drive improvement.

### What am I going to do now?

I need to upload more self evaluation documents to my website.

I need to find better systems for gathering parental feedback.
